

# The Breath Of Life Conference 2007

The Conference brings together internationally acclaimed speakers who each give a one and a half hour presentation. A panel discussion with all the speakers completes the weekend.

CD audio and DVD video discs of the presentations are available for immediate purchase after each session from the recordings sales desk in the Conference foyer. CD audio and DVD video discs reduce the need for copious note taking allowing you to concentrate on the proceedings and are an ideal way of assimilating and disseminating information. DVDs are being produced at the same time as the CDs. Complete sets of both will be available to take away within a short time of the Conference completion.
